“Dedicated to the Advancement of the Park Law Enforcement Profession”

**2009 Spring Workshop**  
**“CCTV & IP Video Surveillance”**  
**Hosted by the Forest Preserve**  
**District of Kane County**

On April 8<sup>th</sup>, park law enforcement professions from as far away as Decatur, Zion, and Rockford met in Aurora for the IPLEA Spring Workshop. Jason Stoddard of Alarm Detection Systems in Aurora, Illinois, provided nineteen park law enforcement professions from eleven different agencies insight into the history and future of video surveillance.

Host Patti Bowker from Kane Co Forest Preserve Police welcomes everyone to the training workshop.

Jason Stoddard of Alarm Detection Systems provided the days training, equipment demonstration, and tour.

On the Alarm Detection System campus, Jason Stoddard provided the class with a presentation, lunch, and a tour of the facility. Mr. Stoddard covered a brief history of video surveillance. He also explained the different types of surveillance systems, their limits, and requirements. Mr. Stoddard also provided a demonstration of surveillance equipment to the class. After lunch, the class participants were led on a tour of the Alarm Detection Systems campus. Participants were able to see the high security alarm monitoring facility where telecommunicators receive alarm activations and make notifications.

After the training session, the IPLEA Board conducted its April board meeting.

IPLEA would like to thank the Forest Preserve District of Kane County and Alarm Detection Systems for hosting the 2009 Spring Workshop.
